

Epson Plq 20 Firmware Download

DOWNLOAD: <https://tinurli.com/2iv5s>

[Download](#)

1. Select the Tools menu and then click on Epson Updater. 2. Open the Start Menu and select Epson Updater from the search results. 3. Right-click on the icon for Epson Updater and click on Epson Updater. To find out the latest version of your firmware, follow the instructions given below: 1. Go to the desktop of your computer. 2. Right-click on the Epson Updater icon that is present on the desktop. 3. Select Open File Explorer. 4. In the File Explorer, go to the C:\>Epson folder and open the file named EpsonUpdate_v1.2. 5. After opening the EpsonUpdate_v1.2 file, select the file named EpsonUpdate. 6. After opening the EpsonUpdate file, select the file named eponupdate.exe from the folder c:\epson. 7. Close the File Explorer. 8. Click on the Start button and select Run. 9. In the Run dialog box, type the following: C:\EpsonUpdate_v1.2\EpsonUpdate\epsonupdate.exe and then press the OK button. 10. If the eponupdate.exe file is in your path, then you will be prompted with a message saying "You have a new version of Epson Update ready. Would you like to install it?". Select Yes to install the new update. 11. If the eponupdate.exe file is not in your path, then the message will be "Cannot find the path. It may be in another part of the program directory. To get the latest version, you will need to download it from Epson US. Please do so by clicking on Download. 12. Now, select Yes and then click on OK. 13. In the "eP-Update version" dialog box, select the latest version. 14. After that, click on "Next". 15. It will ask you to select the folder where you wish to save the downloaded eP-Update file. 16. Click on Next. 17. Now you will need to type the serial number of the printer that you are going to use to download eP-Update. To get the serial number of your printer, go 82157476af
